21st Century Project Letter #05-009

TO: 21st Century Project Stakeholders

RE: **STAKEHOLDER MEETING SUMMARY AND POWERPOINT PRESENTATION**

The State Controller's Office and Department of Personnel Administration would like to thank all of the departments that participated in the August 21st Century Project Stakeholder Meetings.

A summary of the meetings, including questions and answers, and the states' slide show presentation is now available at <http://www.21stcentury.ca.gov/publications/index.shtml> in both PowerPoint and PDF format.

Also, on August 4, 2005, during the third department stakeholder session, an erroneous statement was made about the desktop configuration from the DGS Strategic Sourcing IT Desktop Workstation Common Configurations (<http://www.pd.dgs.ca.gov/StratSourcing/Commonconfiguration-IT.htm>). A comment was made that DGS' baseline configuration for desktops did not meet the 21st Century Project's minimum requirements for processor speed. The statement was incorrect; the baseline processor speed far exceeds the minimum requirements of the 21st Century Project.

Thanks again. We value your input. If you have any questions about the meetings or the project, please send an email to 21stcentury@sco.ca.gov.

Don Scheppmann, Chief
Business Operations
21st Century Project
